Structure of the menu

The menu tree is set together below. Individual items are described in detail in the chapter 7.

Symbols applied in the graph:

Mode of availability of a function:

< - out of the session,
⚎ - during the session,
; - during the pause.

If none of the foregoing icons appears, a function is available in every mode.

Context, for which the value of a parameter is in force:

☺ - for a given user,
● - for a given protocol.

If none of these icons appears, the parameter is in force irrespective of a context (the same value for all users and protocols).

Other symbols:

! - command,
ü - default value of a parameter.

Context dependant in case of no default value signed for a given parameter.
