Structure of the menu

The menu tree is set together below. Individual items are described in detail in the chapter 7.

Symbols applied in the graph:
Mode of availability of a function:
- ■ - out of the session,
- ○ - during the session,
- II - during the pause.
If none of the foregoing icons appears, a function is available in every mode.

Context, for which the value of a parameter is in force:
☺ - for a given user,
 - for a given protocol.
If none of these icons appears, the parameter is in force irrespective of a context (the same value for all users and protocols).

Other symbols:
! - command,
û - default value of a parameter.
Context dependant in case of no default value signed for a given parameter.
